TWO NEW FACILITIES IN USE

The Hensdale Chapel and the Earth Science Laboratory were completed for use this fall.

The Hensdale Chapel was dedicated at Founders' Day on November 3. It is the site of the weekly Sunday afternoon vesper services. These services are sponsored by Koinonia, the campus ecumenical Christian group, and have been well attended. Special services have included a mid-night candlelight service just before Christmas vacation began, two weddings, A Day of Prayer observance with services held on the hour during the afternoon, a baptism and Women's Society of Christian Service Meetings. The Dedicatory Plaque of the Chapel reads: "This building is dedicated in honor of John William Hensdale, prominent businessman, faithful and devoted churchman, secretary of the Board of Trustees and benefactor of the college." Mr. Hensdale commented at the Founders' Day program that though the chapel was small in size he hoped it would serve a big purpose. The chapel is already doing this in the life of individuals, groups and the Methodist College campus.

A new science laboratory has been put into use for the Science 100 course. This is a course which is designed for non-science majors with a special appeal for students going into elementary education. The two-semester course involves the study of the four principal natural sciences: physics, chemistry, earth science and biology.

A matching fund HEW grant for the laboratory has enabled the college to purchase a mineral and rock collection, geological maps and charts and a weather station. The recording instruments of this station will allow the college to keep complete weather data. A computation center is also provided with a computing calculator which can be the core unit for an on-campus computing system. The audio visual facilities purchased include a Polaroid MP-3 camera which allows the science faculty to make 4x5 slides from microscope slides, pictures, etc. for use in the classroom.

Teague Is First Alumnus To Receive Ph.D. Degree

Harold J. Teague '64 has just completed the work for a Ph.D. degree in Chemistry at North Carolina State University. He is the first Methodist College alumnus to receive the Ph.D. degree.

His thesis is composed of two parts and is titled: "I Thiapyrone Chemistry. The Reaction of 2,6 — Dimethylthio — 3,5 — diphenylthiapyrone with Hydroxide Ion. II. Attempted Preparation of Naphthalene A/B Camptothecin."

His advisor at NCSU has been Dr. W. P. Tucker. Teague and Dr. Tucker have had two articles published in the *Journal of Organic Chemistry*, and another article has been accepted for publication.

The second part of Teague's research in connection with his thesis is sponsored by the National Institutes of Health. It is hoped that it will be of anti-lukemic value.

Sykes Is Dist. 29 Soccer "Coach of the Year"

Methodist College's soccer coach Mason Sykes was named NAIA District 29 "Coach of the Year" in soccer this fall.

The team came back from a 0-9-1 record last year to a 6-3 mark this season with wins over St. Andrews, Davidson, UNC-W, Guilford and Pfeiffer.

Coach Sykes started soccer at Methodist College during the 1965-66 academic year. He also coaches wrestling and tennis. His wrestling team won the Dixie Conference tournament two years ago.

Coach Sykes is married to the former Gwen Pheagin, a 1968 graduate of Methodist College.
