Marshals Named for Graduation Exercises

Jean Hutchinson, Public Relations Office
488-7110, Ext. 228

FAYETTEVILLE, N. C.-----Seven students with the highest academic averages in their respective classes have been designated to lead the commencement processional at Methodist College on May 23 and 24.

One male and one female student from the junior, sophomore and freshman classes are chosen for the honor annually by the faculty, with a chief marshal from the junior class. All six class marshals are Fayettevillians.

The honor students are June West Philbeck and Frank Charles Emery, both of Fayetteville, freshman class; Billie-Ann Harber Mumau and Kenneth Williams, Fayetteville, sophomore class; Patsy Jo Ann Hall and James Lee Ledford, Fayetteville, junior class; and Judith Ann Carroll from Cary, chief marshal.

On a 4.0 perfect grade-point-average scale, averages of the seven marshals range from 3.07 through 3.92. The latter is held by Mrs. Mumau.

Philosophy Professor Speaks Six Languages

Jean Hutchinson, Public Relations Office
488-7110, Ext. 228

A man who speaks and writes six languages should have few communications problems.

Such is the case of Dr. Veselin Sarenac, Associate Professor of German and Philosophy at Methodist College. Sarenac keeps students alert in class by interspersing smatters of dry wit throughout his philosophical discourses.

Sarenac left his homeland Yugoslavia in 1943, as a result of the occupation by German forces in World War II. After the war, Sarenac worked with the Allied Control Commission in Italy. Three years later, he went to Argentina and worked as a textile correspondent for five years. He came to the U. S. in 1954, marrying a Peruvian-born U. S. Citizen in 1964.

Sarenac attributes having four different homes to his search for happiness and satisfaction. "If I find something that is wrong, I say goodbye. My family says I have guts for starting over so many times," Sarenac said.

To his command of Spanish, French, German, Italian,

-----more

Russian and English, Sarenac has added extensive studies in Greek and Latin. He has found them all useful in communicating with people he has met in America and in other countries.

Sarenac has written one book in German, "Luther's Criticism on Monk Vows--A New Concept in Christian Philosophy." He is now engaged in research work on the philosophy of Seneca, in English.

"Of all languages," he said, "English is the best and most elegant, the most prominent and efficient." He added, "We have the richest vocabulary at our disposal, with approximately 500,000 words...more than any other language." One of his most enjoyable pursuits is analyzing name origins and meanings. For example, "Veselin" means "joyful." In his case, the meaning is appropriate.

Sarenac earned his master's degree from the University of Belgrade Orthodox Faculty of Theology. He holds a doctoral degree from Friedrich-Schiller University of Jena, Germany, and has done post-doctoral study at the New School for Social Research, Graduate Faculty Political Science, New York. He has spent three years in Russian and Slavic studies at the University of North Carolina at Chapel Hill.

Since 1956, Sarenac has been affiliated with the Bank of America, New York, as documentary examiner of letters of credit in Spanish,

French and German. Since Sept., 1966, he has taught courses in philosophy, German and Russian at Methodist College.

Upperclassmen in philosophy listen attentatively -- and write endless notes -- as their professor explains Immanuel Kant's "Categorical Imperative" and Johann Wilhelm Friedrich Hegel's philosophy of Spirit ("condensed").

Meanwhile, students in introductory philosophy courses learn about Plato's "psyche" and Rene Descartes' theories.

Said Sarenac, "It's the 'impossible dream' to cover all the philosophy suggested in basic textbooks. I simplify my introductory courses so students can understand fundamentals." He provides charts and summaries when necessary to reinforce his lectures. According to the professor, the ultimate goal of philosophic studies is to have students formulate their own philosophy of life, based on all they have learned from "great thinkers."

As final exams begin Friday, Sarenac assures students that they should not be sad if they do not make it, because philosophy will be offered again next semester at Methodist College.

Summer Session Announcement

Jean Hutchinson, Public Relations Office
488-7110, Ext. 228

Summer session classes will begin June 7 at Methodist College. Forty-four courses will be offered in art, music, economics, education, history, mathematics, philosophy, political science, psychology, religion, and sociology. A scientific study of pollution problems has been scheduled also.

French, German and Spanish lab courses and a study of speech fundamentals will be offered.

The session is designed for students interested in beginning the college program, accelerating regular studies, or removing academic deficiencies; and for teachers who wish to renew their teaching certificates.

June 4 is the last day of registration for the session which ends July 15.

For further details, call or write Dr. Fred C. McDavid, Summer Session Director at Methodist College.

enthusiasm for learning and his competitive spirit make Teacher's role worthwhile. "Rewards of teaching" include the smile on a child's face and the on-now-I-understand look in his eyes.

Students who have interned in high school classes know that student smiles and enlightened looks are not always plentiful. Often, discipline and apathy are bigger problems than getting across the subject matter -- and such problems are not restricted to Fayetteville and Cumberland County schools. Creativity and motivation are vital to lesson planning an any class anywhere.

But for high school student teachers, there's seldom a generation gap. Who understands a student's avoid-study schemes better than another student?

One supervising teacher said about her Methodist College student teacher and her use of new classroom techniques, "I'll hate to see her leave.... It will be hard to follow her up."

Students and teachers learn from each other.
